Conference Between Steel Corporation and Workers Sought

May Avert Threatened Strike

(By Associated Press.)

Washington, September 5.—President Wilson has agreed to undertake to bring about a conference between representatives of the steel workers and the United States Steel Corporation, in an effort to avert a threatened strike.

The President was asked in a telegram sent him today by Samuel Gompers, president of the American Federation of Labor, and the committee of steel men to say whether a conference could be arranged before next Tuesday, when the presidents of the twenty-four international unions in the steel industry will meet here to take such action as they might deem necessary.

(By Associated Press.)

Washington, September 5.—President Wilson's declaration in his address yesterday at Columbus that the International Labor Conference provided for in the peace treaty would be held here next month regardless of whether the senate had ratified the treaty, was attacked in the Senate today by Senator Sherman, republican, of Illinois.

Declaring the President's declaration indicated "contemptuous disregard" for the law, he said, "public officials have been impeached for less flagrant violation of our country than this."

"Next month," he said, "we are notified the President proposes to assemble in this country the representatives of various countries under the labor articles ratified by our country. It is his declared purpose to convene on American soil a meeting of alien governments with our own government regardless of whether the treaty has become the law of this republic or not."

Understanding Between U. S. and Italy is Sought.

EXPERT IS HERE SEARCHING FOR POTATO DISEASE

Lee Bonar, of Federal Bureau, Seeking Traces of Black Wart in Fayette.

Making Tour of State in Search of New Disease of Potatoes.

Lee Bonar, an assistant in the Bureau of Plant Industry at Washington, D. C. made a tour of this county, Friday, searching for any traces of a new potato disease known as the Black Wart of the Irish potato.

Mr. Bonar stated that the disease had caused tremendous losses in Europe and especially in England and Ireland. From Europe it has spread to this country and was first observed in the east and in the potato fields of Pennsylvania.

The new disease causes rough, puffy growth of varying size on the tubers, especially in the eyes. The warts are light brown at first, but become black and decayed with age. It sometimes happens that all the potatoes in a hill are rendered worthless. The disease does not attack the vines above the ground.

In making the search, Bonar inspects as many potato fields as he can and usually spends one day in each county. He is making a tour of the entire state.

The inspector asked that all suspicious cases be reported at once and specimens sent to the Agricultural Experiment Station, the State College or to the Plant Disease Survey, U. S.

Keep Faith With These

Yes, it is a matter of sentiment.

We promised—you and I—that this Nation would support the dependents of those who died in Flanders Fields.

We said to mothers, wives and children that if these men should be called on to give all, their dependents should not suffer.

Sentiment? Yes, but a sacred bargain as well.

Now we are called on to perform our part. Over 65,000 gave all, another 225,000 suffered the agony. Our part is to support and help.

The First Address

At Columbus on Thursday President Wilson made the first of his addresses to the American people urging support for the league of nations covenant and the ratification of the peace treaty with Germany.

In a series of thirty, or more, of these addresses, which will take the President on a ten thousand mile journey across the country to the far Pacific coast and back again to the eastern shores, he will direct attention to the real issues and ask that those American ideals, which brought the civilized world into one united, harmonious and militant force which saved freedom for mankind, be not lost in the dust and confusion of polities.

In his Columbus address President Wilson reminds us all of the causes for which this nation went to war, the reason why one hundred million Americans took up arms and sent the flower of American manhood across the sea in the defense of liberty. He reminds us that our pledges to ourselves, to our fellow Americans and to the world must be redeemed, our promises must be fulfilled; that it would be infamy now to fail to redeem our pledges to the living and to those who died on the fields of battle.

He reminds us that, while a great deal has happened in America during the months which have passed so rapidly since last November, when a beaten but sullen foe laid down his arms, that the promises made in war are more sacred now than ever before and America must meet this crisis as she met that one of war.

Selfishness must not be permitted so soon to supplant those noble purposes which saved a menaced world from destruction.

We must forget, after that masterly advocacy of so great and so holy a cause, the expediency of polities, we must forget that we are republicans or democrats, we must forget our vexations over this, that or the other annoyance, we must overlook the mistakes made, whether of omission or commission and go back to that time of anxiety when in the darkness of night ship after ship glided silently out of American harbors, bearing thousands of Americans—soldiers, nurses and business men—across the sea to fight for liberty. We would not, at that time, have engaged in petty fault finding, nor in no endeavor to secure political advantage. We cannot and will not do so now.

The address of President Wilson is a splendid resume of that time which is behind us—that time when the flames of war threatened to destroy civilization. It lifts us above the petty differences of the present time, leads us again to that heroic time of peril and lifts us to the heights where we can view again the brighter time of sacred promises redeemed and a world of nations at peace with each other, bound together by the desire to hold the sympathy and the respect of mankind—stronger in the security it affords than the greatest of armed forces.

It is an appeal to the bigness of the American people and will be as promptly answered with approval as was that other appeal which caused a peace-loving people to go to war for humanity's sake.

Returning the Railroads

We may expect now, as the date draws near, upon which the government, according to executive pronouncement, is to surrender control of the railroads, all kinds of plans to be suggested.

One thing that seems settled beyond all question is that federal control and operation of the great transportation lines has been, so far as private affairs are concerned, a tremendous failure.

With the practically unanimous demand for return of the railroads to private control we may look for radical suggestions without number, ostensibly complying with the public demand but so hedging about private ownership with government restrictions, that it would be little less than a sham, with the inevitable result that the service would be made more inefficient and the responsibility for failure more difficult to fix.

The commerce of the nation is suffering for want of adequate transportation service. What the business men need and demand is better transportation facilities.

It is not coming under government control. If it can be brought about under private control and management the shackles, which have been welded about private ownership by legislative enactment must be broken off, not reinvited by the enactment of new and more burdensome legislation.

Congress must not permit the railroads to be taken over for exploitation either by politicians or ultra radicals. It must provide for unhampered and honest private ownership which will result in the operation of the railroads for the good of the public.

POETRY FOR TODAY

THE WORLD OF SHIPS

I want to go back to the world of To the kicking seas where the salt spray whips; Where the flying spray will cling and freeze, And a ten-inch stick will snap in the breeze; Where a dog's a dog, and a man's a Jack. Or a man's a cur if his deeds are black. Just send me back to the world of ships, Where a skipper knows his men.

I shipped for a cabin boy at ten. My lot was cast with hairy men; Grizzled and rough, but true as steel. Wicked as Sin, but they were real, The God they knew was the God of the sea. And a creed like theirs will do for me. So send me back to the world of ships— For I know my billet then.

Send me aloft at brail and clew, Lash me there 'twixt blue and blue; Send me below where the black gang heaves.

Where the pistons spit and the crank shaft heaves, Send me on deck with bucket and swab; Name the packet, and pick my job, But send me back to the world of ships—

And I'll be happy again. —New York Times.

CITIZENS INSIST LOT BE CLEANED

Citizens residing near the lot purchased by the government for the new Postoffice building, which is supposed to be erected sometime in the dim future, are much annoyed by the condition of the lot, which at the present time is covered with a heavy growth of foul weeds and neglected generally.

A citizen who passes the lot each day urges that the matter be taken up by the city authorities and that the weeds be cut. Also that the contractor finish his work of clearing the lot by removing the unsightly chunks of cement and other debris left upon the lot.

The first duty of the Christian citizen is to be alive to his responsibilities. Among them is that of combating a theory of government and philosophy of life which, if adopted, as it is being, rapidly overthrows those things for which men long justly struggled. DENY BREAD CARDS TO BE USED

Paris, September 5.—Reports have been current during the last few days that the government intended bringing bread cards into use again. To meet these rumors the food ministry Thursday issued a denial that any such intention existed.

FRIEND INSISTED I TRY NEW REMEDY

New Declares he is in Excellent Health Since Taking Dreco, the Great Root and Herb Juice Remedy.

"If it hadn't been for a friend of mine insisting that I take Dreco, I don't believe I would be here today," said Mr. Jerome Galland, a veteran employee of the National Cash Register Co., residing at 120 South Ludlow St., Dayton, O.

"My body was doubled up with pain, and my stomach was full of gas. I was scared right day and night, for weeks. I couldn't rest in any position; my bowels were bound up; I had headaches, and my nerves were gone to pieces.

I could hardly be persuaded at first to try Dreco, but at last consented, and I tell you, it has surely been a blessing to me. I am now working every day and feel strong and well again, without a pain to bother me. My stomach feels easy, with no gas collecting at all; bowels act smooth and regular; in fact I'm feeling great, and now several members of my family are taking Dreco; all getting good results."

When the stomach fails to digest the food properly, or the bowels get clogged up, much suffering is likely to occur. Dreco, the great root and herb remedy, aids the stomach to carry its load; keeps the bowels moving; strengthens the kidneys; acts on a lazy liver, purifies the blood, and sends new energy bounding through the entire system.

All good druggists now sell Dreco, and it is highly recommended in Washington C. H. by Frank Christopher. advt.

ASHLAND LADY AVERS CHANGE NOW APPARENT

Life Long Resident of City Says She is Better Every Way, Since Using Trutona.

Ashland, Ky., September 4.—Mrs. Annie McCabe, 59 years old, has spent her life in Ashland and she is known to practically everyone in this city and vicinity. She has the following praise for Trutona, the perfect tonic:

"I have been a sufferer from kidney trouble for the past three years. My stomach has been out of shape, too. I had a poor appetite and was usually constipated. Generally speaking my system was all run down.

"I can see a wonderful improvement in my condition in every way, since I began using Trutona. As a laxative, this medicine is the best ever and it has helped me to sleep better at night than I did before. My appetite is improved, too. Trutona has made me feel better and stronger in every way and naturally I think it is a wonderful system builder. I can recommend Trutona to anyone suffering as I was.

Trutona is now being introduced and explained in Washington at Frank Christopher's. advt.

The entire reunion was one of the most delightful imaginable, bringing together the scattered members of the family for a day of visiting and the discussion of mutual interests. At the noon hour a long table was placed under the trees surrounding the Fife cottage and dinner was served cafeteria fashion.

The table, decorated with large baskets of flowers and piled with great platters of fried chicken home made cakes and every thing delicious that expert cooks could provide, drew the crowd like a magnet and satisfied both the eye and the appetite.

Miss Grace McHenry gave the opening prologue of the play, entitled "A Missionary Clinic."

The scene was laid in a physician's office, Miss Leland taking the part of a missionary specialist with the cleverness and ability which she always brings to her impersonation work.

To the intense amusement of her audience she prescribed for her numerous patients, who find other things interfering with their missionary duties and effects satisfactory cures.

The cast was splendid one each part well taken; with Miss Mazie Kessler the nurse, Miss Elizabeth Davis the society woman; Miss Blanch Breech the out of town woman; Miss Grace Mick, the Presbyterian secretary; Miss Mary Plyley, Presbyterian secretary and Miss Vere Goddard, the Deaconess.

Following the play there was an enjoyable social hour with dainty refreshments served by the September Hostesses, Mesdames A. J. Thompson Carrie C. Deere; Roy Thompson, Ione Bryant, Misses Alta Sprenger, Ethel Mace, O'Farrell.

The basement showed a wonderful piece of autumn decorating goldenrod marigolds, Salvia and Autumn's loveliest blooms arranged with striking effect by Miss Clara and Messrs. Elmer and Raymond Zimmerman.

The young women received congratulations galore upon their entertainment.

Mrs. Herbert Chapman and Miss Elsie Craig were hostesses to the last meeting of the year of the young Woman's Foreign Missionary Society of the Grace Methodist Church at the home of Mrs. Chapman corner Dayton and Van Daman avenues, Thursday afternoon.

RUSH IS ON FOR LICENSES

REV. F. E. ROSS QUILTS PASTORATE CONFERENCE NEAR

It is stated at the Clerk's office that more than 75 licenses, not including those issued by the township clerks, have been issued to squirrel hunters and that a steady stream of license seekers are coming in everyday. The squirrel season opened Wednesday and will continue until September 26, the short season, it is said accounts for the rush for the licenses.

The little animals are rather plentiful this year, it is reported, and many are going out from this city every day in pursuit.

Although the limit for one day's killing is set at five, no one has been heard of who was fortunate enough to bring down that number.

PRESIDENT ADDRESSES INDIANANS

(By Associated Press)

Indianapolis, Sept. 5.—President Wilson told a crowd of several thousand here last night that no one believed the league of nations would make all wars impossible but that he expected it to make war "violently improbable."

The economic arbitration section of the covenant, he said, would "keep war on the outskirts" and make it only a "last resort."

Opponents of the league of nations, he said, had discussed only three out of twenty-six articles of the covenant. The articles which would make war improbable had been over looked.

AT URBANA

(By Associated Press)

Criticism of Japan because of that country's attitude toward the Shantung question is not justified, President Wilson told a small crowd that gathered at the rear of the special train at Urbana, Ohio. Japan can not act in the matter of Shantung, the President said, until three months after peace comes.

"Then, I am sure she will do so. Criticism of Japan is not justified," he added.

The trouble is that a high altitude makes most of us dizzy. If Mexico could only be made safe it might become a great winter resort for Americans. And then the Mexican bandits could become hotelkeepers.

PULL TOGETHER FOR BLESSINGS OF A HIGH ORDER

NERV-WORTH AND NERV-WORTH LAXITIVE TABLETS DO WONDERFUL TEAM WORK.

These two famous family medicines unite their forces with happy results for those whose nervous ills are connected with bowel and liver troubles. Nerv-Worth, the liquid, generally masters derangements of the liver and bowels, but in some cases these are too deep rooted to surrender quickly and then the Tablets, taken in connection with the liquid do wonderful work. They are especially valuable in cleansing the bowels for those whose habits of constipation do not readily yield to the laxative properties of Nerv-Worth, the liquid. A bottle of Nerv-Worth and a 25c box of the Tablets form a combination without equal in overcoming ills of the nerves, stomach, bowels and liver. Your dollar back if this famous family tonic does not benefit you. The Brown and the Christopher drug stores sell Nerv-Worth in Washington, C. H.

THEY MIX UP AT WILMINGTON

Through it wasn't what they thought it was, everybody got into it, when a fight was started out in front of the Oakland Motor Inn last night.

The street had been full of marching lines of boys and girls, staging the second night of the annual fight of the upper-class men of the High School, and when an automobile stopped in the street and a bunch of young men and boys pounced upon a husky looking fellow in the streets, everybody stood around and took in the fight; and some of the boys of the school, who happened along, got into it for fun, not knowing that it was an honest-to-goodness scrap.

It started this way. A Wilmington man was driving into the city, when some boys from Washington C. H. it is said tried to go around him. The boys declared that the driver did not give them room, but kept them behind and "dusted" them, and when they got into Wilmington and the car stopped they decided to serve as Judge and jury and hangman in the matter, and punish the fellow after their own fashion. But there were too many around, and the fight which nobody thought was a serious one for a time, went on until it dawned on the crowd that a real fight was being pulled off.—Wilmington News.

FELLOWSHIP MEET SUNDAY AT SABINA

Next Sunday, Sept. 7, will be the great "Fellowship Meeting" day of the Washington-Wilmington-Sabina Churches of Christ at the Sabina Camp Grounds.

This is the result of the Washington Church of Christ losing to the Wilmington Walnut Street Church of Christ in the recent Bible school contest.

But the Wilmington church volunteers to furnish half of the program and the Washington church the other half and the Sabina church, offers their church orchestra of ten pieces to enliven the occasion.

The program will consist of music, solos, quartets, duets, readings, addresses, etc.

The Washington Church of Christ meets at the church in regular session next Sunday morning at the regular hour 9 o'clock for the lesson period. Communion service will follow, after which the members will leave for Sabina at 10:30 a. m.

Members are requested to take lunch baskets when they go to Bible school. There will be plenty of autos and auto trucks to take all who desire to go, it is announced.

The world is afame with fires that will destroy if are not speedily quenched. Bolshevism is everywhere sometimes unrecognized often unchallenged. The Sabbath evening services are to be renewed at the Presbyterian Church Sunday evening at 7:30 on Bolshevik vs. Christ. 209 L2

The Gallery of The Autumn Fashions

In this introduction of the Autumn and Winter fashions there is an infinite number of ideas that people are finding pleasure in—personal pleasure, because of the great many possibilities for the attainment of individual satisfaction with the styles.

In the suits, which certainly are the most satisfactory in line for several seasons, there is a variety that is very noticeable.

There are types here with the suit coat ranging from thigh length to as long as knee length.

Designers have made some of the models on semi fitted lines and others loosely belted with low waistline.

Strikingly clever large pockets, fastened with good bone buttons will be among the favorite suit style motifs and another favored trimming idea is the heavy braiding.

No one should neglect the fashions in Suits which have considerable style prominence and which will be seen with much greater frequency this season than last.

In this Gallery of the Autumn Fashions, every type of Suit is to be found.

The whole store is now exemplifying all the fashions for Autumn and Winter in suits, coats, street frocks, afternoon and evening gowns and wraps, millinery, furs, blouses, hose, gloves, bags, veils, ribbons, hair nets and the many accessories of dress, all of which now come under the direct influence of the arbiters of fashion.

TAX DUPLICATE SHOWS INCREASE

The tax duplicate of Fayette county, according to nearly complete figures obtained at the County Auditor's office, shows an increase of upward of \$1,000,000 over the returns of the previous year, and of the amount some \$400,000 is from Washington C. H. property increases.

Some of the rural taxing districts show a falling off over the returns of last year—a thing which has occasioned considerable surprise.

The total duplicate, not taking into consideration the Express Company valuations, which have not yet been received, is \$46,372,630 as compared with a duplicate of \$45,493,935 last year—a gain of approximately \$925,695. The Express companies are expected to raise the amount at least \$27,000.

WOMAN THINKS SHE IS PRIVILEGED TO TALK

"If anyone ever had a miserable stomach I surely had. It was growing worse, too, all the time. Had severe pains and attacks every ten days or two weeks and had to call a doctor, who could only relieve me for short while. Two years ago last February I took a treatment of Mayr's Wonderful Remedy and I have not had a spell of pain or misery since. My friends just wonder that I am looking so well. I feel I am privileged to talk about it." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

BACK OF EVERY SUCCESS LURKS IMITATION

BE NOT DECEIVED

It has come to our notice that certain stucco materials are being represented in Washington C. H. and vicinity as ROCBOND STUCCO; and that finished ROCBOND jobs are being referred to and used as a means of promoting this deception.

The imitator is never a creator, but a blind follower, who, lacking in the knowledge and experience so essential to the development of high standards, substitutes form and appearance for fundamental qualities.

There is but one ROCBOND STUCCO, this product is manufactured by the Rockbond Company, Inc., at Van Wert, Ohio, the name ROCBOND being registered and protected by U. S. letters of patents.

ROCBOND STUCCO is widely used throughout Ohio and surrounding states and is recognized as the highest possible standard of stucco construction wherever it is used.

ROCBOND STUCCO is handled in this community exclusively by the R. C. Leslie Stucco Company, 130 South Limestone St., Springfield, Ohio. This agency having completed hundreds of successful ROCBOND STUCCO contracts in the past four years, —this work stands as evidence of ROCBOND quality and mechanical excellence.

Practically all ROCBOND STUCCO is finished with stone surfacing—but not all stone surface stucco is ROCBOND. Temporary imitations may be possible, but the duplicating of lasting quality is quite another thing.

Before you let your contract for stucco work, be sure of your contractor. Investigate the time-tested qualities of the stucco work in your own community, (rather than be persuaded by claims of wonders performed at distant points). Familiarize yourself with the trade standing and history back of the material you are using.

An ounce of investigation beforehand, may save you tons of unsatisfactory material.

Imitation is unmistakable evidence of merit. The imitator concedes this superiority.

Ordinarily ROCBOND may be known by the price—it costs more and it's worth it. You pay for *plus quality and you get it.*

Specify ROCBOND STUCCO and be sure that you get ROCBOND STUCCO.
